ELEY® Match Director program

ELEY established in 1828, is now globally recognized as the manufacturer of the most consistently accurate .22LR rimfire ammunition in the world.

ELEY ammunition has been proudly made in Great Britain and now resides at our highly technical production and testing facility in Birmingham, West Midlands.

Our team includes internationally recognized specialists with extensive knowledge in internal and external ballistics, powder dynamics and many Six Sigma qualified engineers.

Innovation and continuous product development separate ELEY from its competitors. ELEY has always been at the forefront of the ammunition industry, pushing technological boundaries which have resulted in patented new methodologies and techniques.

Our products allow target shooters at Club, World and Olympic level to realize their potential and win. We produce technically superior ammunition, while providing an excellent service to target shooters throughout the world.

Dedication, commitment and innovation are at the heart of the ELEY philosophy. The result is demonstrated by the countless medals won and World Records achieved with ELEY ammunition.
